

Flotsam : The Schooner Apollonia + Hudson Valley Brewery

This week we're excited to bring you Flotsam: a Little IPA brewed exclusively with locally-grown malt delivered by the zero-emission sail freight project of [The Schooner Apollonia](#).

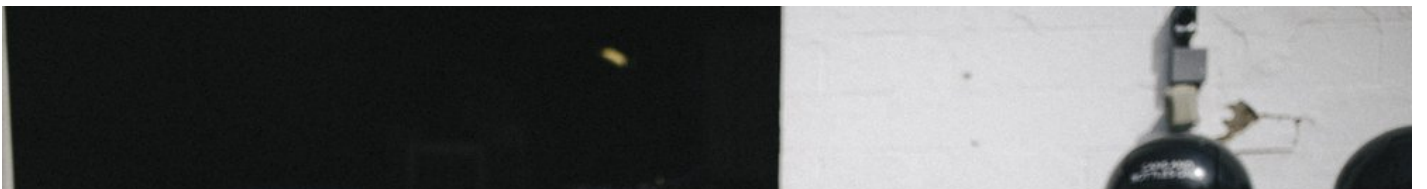

As long as the Hudson River isn't frozen over, Sam and the team aboard the [Schooner Apollonia](#) deliver to us by sailboat about 15% of the [Hudson Valley Malt](#) grain that we use in our beer.

They sail from Hudson to Beacon, dock along the riverbank, load the grain onto trailers pulled by electric-assist bikes, and deliver it to our door.

Schooner Apollonia is an important partner in our sustainability journey. To celebrate their ongoing--and often very hard--work, we brewed Flotsam, a blissful summer cruiser. It drinks perfectly on a boat, or as close to water as you can get. Grab a six-pack of cans, celebrate the work of the Schooner Apollonia team, and enjoy the rest of the summer.

FLOTSAM (4%)

Little IPA produced in collaboration with our friends at Schooner Apollonia, brewed with grain from Hudson Valley Malt delivered by sail freight, and hopped with Citra & Motueka.
